PROFILE

EASA A1/A3 and A2-qualified drone pilot with a completed Maintenance Practitioner EBA apprenticeship and experience in metal production, quality-sample preparation and installation. Seeking an entry-level role in UAV field operations, testing or inspection support, combining practical working skills with a willingness to learn company-specific systems and procedures.

DRONE QUALIFICATIONS & PRACTICAL SKILLS

Qualifications: EASA A1/A3 and A2 completed.

Private flight practice: DJI drones, landscape footage and practice sessions with friends; developing smooth control movements and image composition.

Digital skills: Basic video cutting and clip selection; personal HTML, CSS and JavaScript projects.
